

US Army Garrison, Hawaii

IFSO Motor Vehicle Safety Day AAR

Mission: Provide safety stand-down to 25 ID (Rear), 8 TSC, and USAG-HI.

Components: 2 hours of in-unit briefings and activities and 2 hours at event site

Results: Units report number trained:

- Estimated 2,500-3,000 attendees to event site
- 60 motorcyclists participated in skill circuit (goal 200)
- 72 Soldiers participated in driving skill circuit (goal was 72)
- 245 Soldiers participated in DUI golf-cart simulation
- Estimated 500 observed the 2 “Jaws of Life” demonstrations
- Attendance surged at 1000 and 1300 as units sent Soldiers in phased groups

IFSO Motor Vehicle Safety Day AAR

Lessons Learned:

- Expand vendor display area
- DUI simulation effective and easy to administer
 - Use 3-4 parallel training areas
 - Can be exported to unit functions
- Motorcycle course easy to administer
 - Fast turnover, about 1 minute between riders
 - Can be exported to unit functions, space permitting
- Drivers skill circuit limited by area and training assets, best for small functions and groups (this limitation known and accepted)
- FRAGO process effective for event organization
